

As of June 21, 2020, we began “live streaming” Sunday morning services at 10am. Here's some info on what that looks like and the process we used to get there:

From March to June 14, we had pre-recorded services that went live on Sundays at 10am. Initially, we had only our YouTube page (you can check it out here: <https://www.youtube.com/channel/UCBg3sNsf-zl38FFrD1Vab6A>). Then, on Mother's Day in May, Facebook became a great opportunity to spread the message, along with YouTube (Search for "Manheim Grace Brethren Church" to find us!). We had a small, yet effective team in place who would record videos, splice in editing, add graphics, and so much more!

When we knew we would be meeting back in person on June 21, we took our online presence to a whole new level with Livestreaming! The same dynamic team got their heads together and made the Livestreaming option a reality for our church. Through the weeks leading up to today, this team has downloaded programs, set presets, ordered cameras, and spent countless hours creating a seamless online experience...for you!

As a church body, we realize not everyone is able to attend church who would like to come, due to various reasons regarding the pandemic. So, you can see how excited we are to be able to offer this to all our congregants and also, to the body of Christ around the world! What an opportunity and a blessing!

If you haven't yet had a chance to check out our Livestreams, they're available on both online platforms weekly on Sunday mornings, 10. See you there!  
March-Current Sermons are on YouTube  
May 10-Current Sermons are on Facebook
